

High Performance Chains

GRIPPER CHAINS

“For the Perfect Grip”

Gripper Chains

TIDC India has come up with a high performance Gripper Chain for Form, Fill, and Vacuum seal wrapping applications which help in

Reduced Maintenance Costs

Increased Productivity

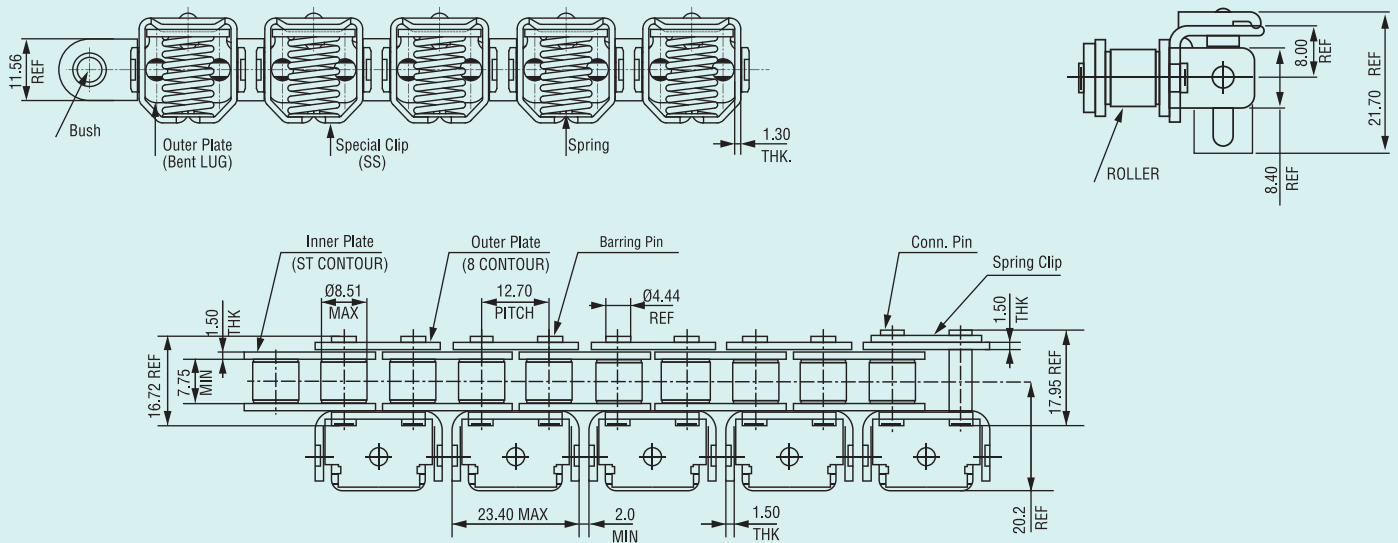

Reduced Downtime

TIDC India's Gripper attachments feature reliable clamping mechanisms to ensure precise positioning. High-performance springs are designed to last more than 10 million cycles, even at high speeds.

Special Features

- 1 Straight Contour Inner Links for superior Fatigue Strength
- 2 Stainless Steel Springs and Clips for Corrosion resistance
- 3 Electroless Nickel Plated Chain parts for Corrosion resistance and superior wear resistance
- 4 Chains pre-stretched and supplied as Matched strands for trouble free performance
- 5 Lube free version available with oil impregnated bushings which reduces maintenance costs

- Straight Contour Inner Links for improved fatigue strength
- Electro less Nickel Plated

- High performance springs made of SS 304
- Capability to work for higher cycles

Clips made of SS 304 for superior Corrosion resistance made with special tooling for precise dimension control

Connecting links with Grooved Pins available for easy joining of chains in machine
