CHAIN LUBRICANT

>> About HI LIFE Spray

TIDC India, a leading chain manufacturer based on extensive research and expertise has developed this unique “HI LIFE Spray”, made out of a compound mixture of synthetic oil and solid lubricants. This is a multipurpose chain lubricant to protect the chain from wear and corrosion.

>> Benefits

- Excellent wear resistance / corrosion protection
- Smooth wrapping of chains on to sprockets
- Easy to penetrate
- Versatile applications
- Repels dust and moisture
- Reduces down time
- Improves productivity

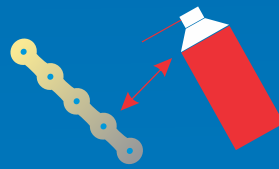

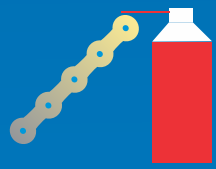

>> Salient Features

- Unique blend of synthetic oil & solid lubricants
- Optimum viscosity for penetration and retention
- Lowest co-efficient of friction
- Excellent adhesion to metal surfaces
- Neutral to rubber & polymers
- Free from CFC & silicones

>> Application

- Suitable for chains, locking devices, clutches, gears, hinges, wire ropes, cables, spring assemblies etc.,
- Operating temperatures from - 30 °C to 200 °C
- Dusty & dirty environments
- Water & steam environments
- Slow / High speed applications
- Low / High load applications

>> How to Use

				
Use the Spray in well ventilated areas	Shake well before use	Use Extension tube if necessary	Spray from a distance of 15 - 20 cms	Ensure the entire chain is lubricated
