## Roller chain cutting table

TIDC INDIA, Pioneer in chain manufacturing, has come up with a simple and robust Roller chain pitch cutting table based on our customer need. "DIAMOND BREAKANATOR" can be used to cut Roller chains as per the end user requirements. It is of SS304 construction and designed to cut 1/2", 5/8", 3/4" and 1" pitch British and American standard chains. The cutting process is simple, accurate and effective. It helps to serve the customized needs of customer in a shorter lead time.

### Working Principle
